Avenue of the Giants
Humboldt County, Northern California

This world-famous scenic drive is an alternate 31-mile portion of the original Hwy 101, which now parallels the new Hwy 101 with its 51,222 acres of magnificent redwood groves. It is by far the most outstanding display of these giant trees in the entire 500 mile redwood belt and is easily accessible with convenient services provided along the way. The Avenue of the Giants is surrounded by Humboldt Redwoods State Park which has the largest remaining stand of virgin redwoods in the world. Take time to picnic, camp, hike, swim, fish, raft, bike ride, or simply experience peace in the cool hush of these ancient old growth forests.

THE DYERVILLE GIANT

When measured in 1972, stood 302 feet tall with a trunk 208 feet farther than Nagels Fagal or comparable to a 30-story building. It had a circumference of 32 feet, four inches and a crown spread of 34 feet and weighed more than a loaded 747 jetliner (7,000,000 lbs). The Dyerville Giant’s crown is now in pieces, but the trunk final height has been estimated at about 175 feet, certainly within several feet of having been the tallest tree in the world. Even for those who see it when it still stands, its size is difficult to comprehend. The Dyerville Giant was recognized as the “Champion” Coast Redwood as certified by the American Forestry Association until it fell on March 24, 1999. Experience it during your visit to the Founder’s Grove, just north of Ritual, south of southeast off Dyerville Loop Road.

SHELTER COVE

A unique seaside community offering an airport, golf course, supermarket and fine dining, surrounded by volcanic black sand beaches, mountains and extremely coastal beaches! Shelter Cove boasts excellent ocean fishing, tide pools, hiking, birdwatching and mountain trails, nickel, all at your doorstep. While on the North Coast, a visit to Shelter Cove is a definite in resume. During late April and all of May, check out the migrating whales just off shore. Don’t miss visiting this secluded area nestled between the King Range National Conservation Area and the magnificent Pacific “Last Coast”.
